Evidence Imaging

- Forensic evidence has to be imaged and duplicated
- The image can be used for forensic analysis
- The original evidence item must not be used for analysis
- Imaging creates a bit by bit image of the evidence item
- The evidence item could be a hard drive,USB,SSD
- All the files and folders have to be hashed
- FTK imager from AccessData and Autopsy are some of the tools we shall use to create forensic images of evidence.
